

THE THEO DISCUSSION WORK SHEETS

The two following pages are designed to help us organize the insights and observations surfaced by our classroom discussion. These pages are left unnumbered on purpose. We will number them together as our discussion progresses so that we can literally stay on the same page with one another. Please print about 20 pages (10 of each kind) for starters.

Ideally, you would duplex print these worksheets, that is, you would print on both sides of your printer paper. However, whether you duplex print or not, the key is to punch your work sheets so that they will go into your 3-ring binder as facing pages. You will want to be able to open your notebook and have the facing pages look like this:

THE THEO DISCUSSION

	ULTIMATE QUESTION	THEORIES
QUESTIONS FOR MY NEIGHBOR
